Assignment 1:

Activity-1

Choose any organisation of your own choice and create ten (10) hypethetical IT projects suitable for the organisation. Make sure you define the mandate/objectives of the organisation and ensure that the projects your'e proposing aligns very well with defined mandates.

Activity - 2

What is a Project ???

- No matter what your job is, you handle a myriad of assignments every day:
  - prepare a memo, hold a meeting, design a sales campaign, or move to new offices.
  - Or maybe your day sounds more like this: make the information systems more user-friendly, develop a research compound in the laboratory,
  - or improve the organization's public image. Not all these assignments are projects.
- How can you tell which ones are and which ones aren't projects?

COEN 850 IT Project Management Class Activity Assignment

Assignment 2:

Activity 1: Which project methodology will suit the projects you have listed in the previous assignment?

Activity 2: You are to choose one project out of the listed projects in previous assignment and prepare a SOW, WBS, OBS and TRM for the project.
